

# SPORTS PREMIUM

## Sports Premium 2016/17

The government is providing additional funding of £150 million per year from academic year 2013-2014 in order to improve the provision of physical education (P.E.) and sport in primary schools. This funding – provided jointly by the Departments for Education, Health and Culture, Media and Sport – is allocated to primary schools. The school will receive £9025 for this current year. This money is ring-fenced and therefore can only be spent on provision of P.E. and sport in schools.

At Holy Trinity Primary School we will spend the additional funding on improving the provision and standard of P.E. and sport. As a school we take pride in being able to provide a wide range of opportunities in P.E. and Sport across the key stages. Pupils have participated competitively in Football, Tag rugby, Netball, Athletics, and much more. We have a range of afterschool sports activities available to all pupils with thanks to outside coaches and the time given by school staff.

From September 2013, we have been held accountable over how we spend our additional ring-fenced funding. Ofsted will strengthen the coverage of P.E. and sport so that both the school and inspectors know how sport and P.E. are assessed in future as part of the schools overall provision.

We have a plan in place to spend our allocation of the Sports Premium Funding in the following ways, including:

- Employing specialist sports teaching to provide high quality PE sessions using a planned scheme of work.
- Additional lunchtime and after-school clubs for pupils providing access to high quality sport.
- Further increasing our teachers' knowledge of primary P.E. through a variety of CPD courses.
- New P.E. equipment to provide more opportunities within lessons.
- Broaden access for all pupils to a wider range of physical activities.
- Subscribing to the Waltham Cross and district primary schools sports association.
- Provide pupils with opportunities to compete/participate in a range of sporting events.
- Provide opportunities for talented pupils in sport to receive appropriate training
- Provide expert coaching for schools including additional sports coaches at lunchtimes.

### Curriculum Development

A qualified sports teacher will work from Rec – Year 6 for one session each week. Sports will include football, tag rugby, handball, basketball cricket and tennis.

The outcome is to ensure pupils receive enhanced PE teaching and to develop sustainable schemes of work to further improve PE skills and participation.

The school has hired the services of Elite Sports, a coaching company who deliver sports activities at lunchtime. In addition our sports teacher runs four clubs across Thursday and Friday. This initiative will benefit all children from the Early Years Foundation Stage through to Year 6.

### **Impact**

#### **How we will monitor the impact of the funding:**

The school monitors both the physical development and engagement levels of pupils through:-

- Teacher observation, assessment of PE and quality assurance measures.
- Pupil 100% attendance and maximum take-up at school sports Clubs.
- School council and pupil voice.
- Participation and achievement in school sporting events.
- Improved attitudes, well-being and raised self-esteem.
- Improved behaviour at lunch-time of pupils actively engaging in sport.
- Parent feedback: 'Wow' notes inform school of pupils sporting / fitness achievements.
- Celebration Assembly, Certificates and Sports Star of the Week.
- Numbers of pupils involved in sporting activities in and out of school

The school will maximise opportunities for both in school and out of school sporting competitions. The results of the competitions will be shared via the website & school newsletter. We will also work towards gaining a Bronze in the Sainsbury's Kitemark award.

We will also evaluate the impact of the sports premium funding as part of our normal self-evaluation and provision mapping arrangements. We will look at how well we use our sports premium to improve the quality and breadth of PE and sporting provision including increasing participation in PE and sports so that all pupils develop healthy lifestyles and reach the performance levels of which they are capable of.

Assessment is made both formally and informally as well as feedback for staff and visitors to the school. We will also evaluate the impact of professional development opportunities in improving teaching and learning in PE.

Our long term aim is for every child in the school to be involved with at least one after school sports orientated club in any academic year. This is part of the schools plan to increase physical fitness and decrease obesity, which is increasing in Hertfordshire schools.

Teachers are gaining in confidence in teaching the PE curriculum and are moving away from using structured schemes of work, to planning directly linked to the new national curriculum. We are entering the football and netball leagues, with a wider participation of children and continue to do well in these. We have entered more A10 competitions and are taking more children to these events, including those who struggle to access and enjoy PE. Through monitoring, assessments and observations children are making progress in PE in their skills, but also attitudes and self-esteem within PE lessons.

Our future aims for this academic year is to implement a house captains system to provide more intra sporting competitions, focusing on participation and enjoyment of taking part in a variety of sports.
