

Year 1 Class Newsletter

Summer Term 2018

Summer Term in Year One.

Hello and welcome back to school. We hope you had a fantastic Easter break. The aim of this newsletter is to give you some insight to the learning that will be taking place in the Summer term. All children have settled and began working on their individual target to show their true potential.

If at any time you have any questions or you are unsure of anything please ask. If I am unable to see you at the beginning or end of the day please make an appointment to see me at a convenient time.

What does learning look like in Year 1?

During the Summer term we tried to make the children be in control of their own learning paths but we as teachers will guide, support and facilitate them. We will now be building upon these transitions and ensuring the children will be ready for year 2 in July. English, maths, phonics and handwriting will continue to be taught daily and the remaining curriculum subjects are taught using a topic approach. We aim to plan interesting topics, which will inspire and motivate the children in their learning.

Maths

We will be continuing to work hard to develop children's confidence in maths. We will also be focusing on:

- Solving one-step problems involving multiplication and division.
- Multiplying making connections between arrays, numbers counting in 2's, 5's and 10's.
- Division sharing into equal groups, divide by grouping
- Finding simple fractions of objects, numbers and quantities
- Tell time by the hour, half past and quarter past.

You can support your child's learning in maths by playing number games at home, practicing number formation, adding and subtracting and writing number sentences so the children get used to using the symbols +, - and =. Please ensure children c

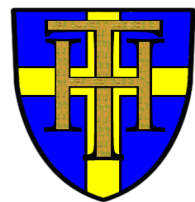

English

We will begin the term learning about Traditional tales, uniqueness of them and creating their own tales. This will definitely expand their thinking and writing skills. Poetry will be taught therefore children vocabulary will enhance. The children were able to build on the skills learnt in the Spring term. We will be having a particular focus on making sure the children are remembering to use capital letters, full stops and finger spaces in every sentence.

Important reminders!

- Please make sure your child is wearing the correct uniform and all belongings are clearly named.
- Reading books need to be in school every day and please remember to sign your child's Reading Record.
- Please make sure any money sent into school is in a labeled envelope.
- Please make sure your child has their PE kit in school every day.
- Homework will be sent home on Fridays. Please complete the homework and return it to school by the following Friday.

Our motto is:

Alta Pete – Aim High

"The primary aim of the school is to help each pupil reach his or her full potential so that they may develop the attitudes, skills and knowledge to take full advantage of the opportunities available in their future lives."

We will be teaching phonics for 20 minutes daily. The children will be learning new sounds and practising their blending and segmenting skills which will support their reading and writing.

The children will continue to bring home weekly spellings related to what the focus is in their group that week. We have noticed that some children are not practising these at home. Please note this is part of your child's homework and they are expected to learn these words at home ready for the spellings test the following Monday.

Reading is an integral part of our school day. As well as a daily designated class reading time the children will access a wide range of texts throughout the day. They will be given opportunities to read texts during shared teaching, as part of a small group and individually. Your child will read with an adult in school at least once a week. It is important that your child brings their reading book into school every day so that we can maximise additional opportunities for them to read. Please encourage your child to read every day at home and make it a special time together. Remember little and often is the best way to develop a love for reading! Please can you sign the reading record when you have read with your child. You may be aware that we have introduced 'Lego man' to the children – every time they read at home they receive a sticker for their Lego man. Once they get every sticker for his belly they will receive a prize.

Science

Throughout the term our science topics are 'Materials ' and 'Plants .' The children will develop their understanding of the various types of materials. Also will be able to apply their learning of identifying which objects are made from what type of material.

Children will learn what is a plant, the different types of plants and be able to describe the various types. Furthermore they will be able to demonstrate and state the process of growing plants.

Topic

We will be exploring and comparing different toys all around the world. The past and present types of toys and how they were all made and built.

In RE we will be learning the religion of Judaism, the life of a Jewish child, the importance of Sabbath to Jewish children.

In art and design we will be exploring painting skills and creating paper toys.

In our computing lessons we are learning to use the computer independently and access different programmes to support our learning. In our music lessons the children will be learning types of movement.

PE will continue to take place every Tuesday and Friday. Please ensure your child's PE kit is in school every day and is named clearly.

Homework

Homework expectations for year one will consist of:

- Daily reading – please read with your child daily and sign their reading records.
- Weekly spellings – These will be sent home on Tuesdays and the children will be tested on the following Monday. Spellings will consolidate the learning which has taken place during phonic lessons that week.
- Maths – Each child will be expected to use Mathletics for at least 3 x 10 minute sessions per week. Your child's Mathletics log on will be found at the front of their reading record.
- Weekly challenges set through marvellous me. Your child can discuss the answers in class with me or they can record them on paper to share with the class.

I am elated to have met your child/children and their beautiful personalities that shines throughout the terms. They are all devoted, hardworking and focus which is very beneficial to their academic achievements.

The Year 1 team would like to take this opportunity to thank you for all your tremendous and continuous support .

The Year One team- Miss Williams, Mrs Maskall and Mrs White.
